Reference: Letter of Gratitude for Training Books

I would like to thank Instructor Mohamed for the training books that he is willing to send me at no cost. I advised him that I would be putting together some training material for the police department and I felt that the information provided from his training would be a big asset to my teaching. Mohamed is giving several different books to me that cover a large part of the curriculum in defensive tactics. I would also like to attend any training that would be reasonable that is given through black tiger.

Thanks for your cooperation.

Officer G W. Garnes
